

Here's how:

1. Cut off this narrow strip so you have a square.

2. Make the cootie catcher's folds by following the order marked on the page. Please note:

- a dotted line like this ..... means fold under (so the flap is on the underside of the page)

- a dashed line like this ---- means fold over (so the flap is on the topside of the page)

- a solid line like this — means crease and unfold.

3. Insert your fingers in the four pockets and start playing! (You remember how, right?)
