

Angel Course Management  
Making your course visible/invisible  
to Students

Winter 2009

Temporary Workaround

Courses are delivered **disabled**, which means students cannot see inside the course until the instructor makes the course accessible (enabled).

## Courses

[Find a Course](#) [Create a Course](#)

**FIT Basic\_Master Course**

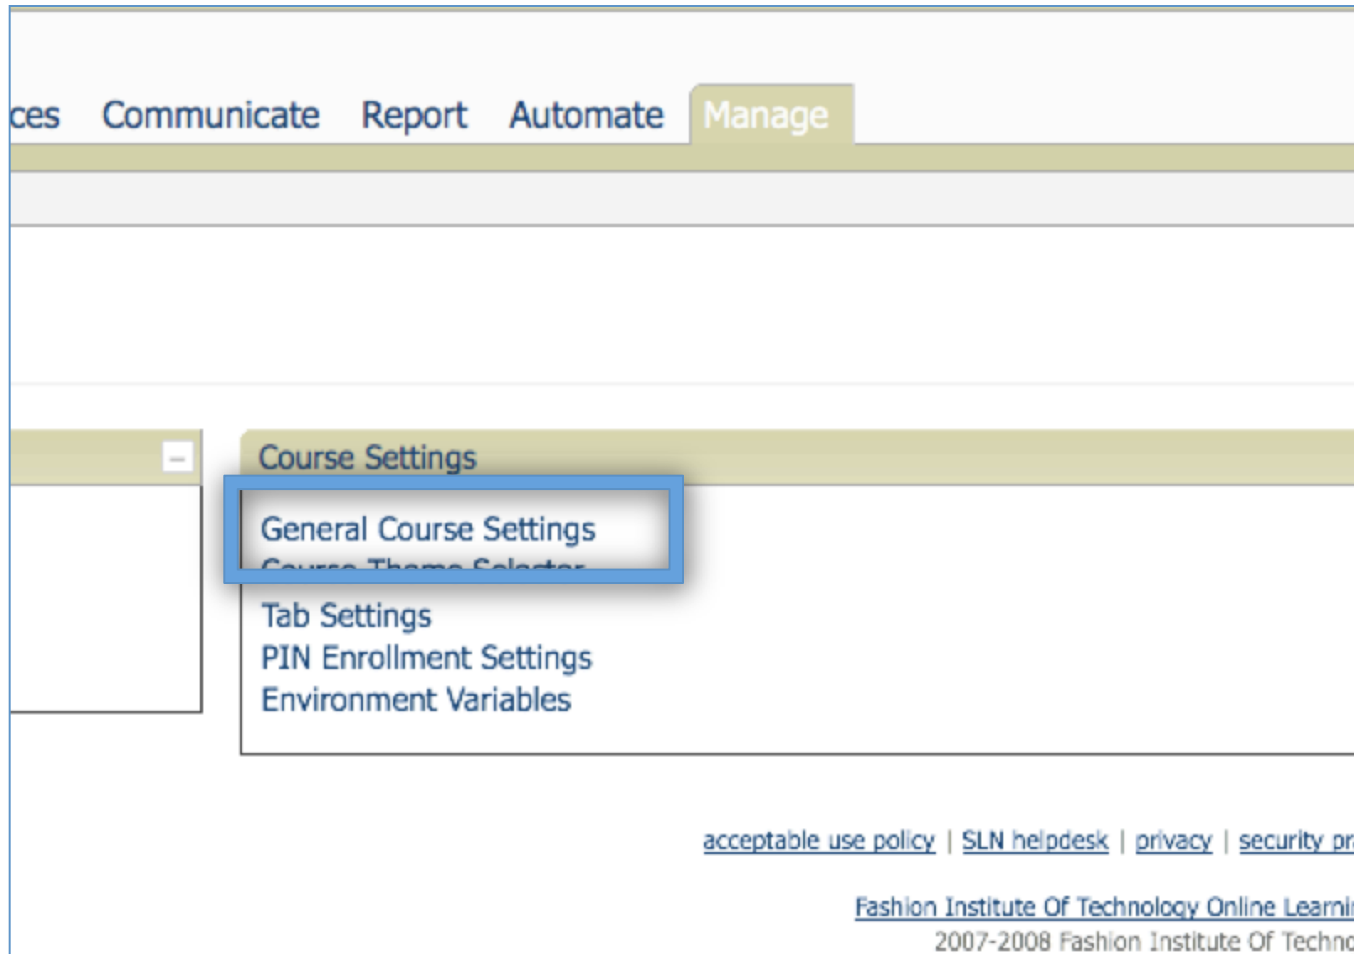

[Disabled]

Role: Course Editor Instructor: CET\_A

If your course is **disabled** (unavailable to students) the word “**disabled**” will appear below the course name.

Click the **Manage** tab, go to the **Course Settings** window and click on **General Course Settings**.

# Go to Enrollment tab and un-Check the enrollment ends date

Practice Course Riman2

Course Calendar Learning Modules Resources Communicate Report Manage

Home > Course > Management Console > Course Settings

Course Settings  
Practice Course

Course Access **Enrollment** Standards Objectives Advanced

Enrollment Settings

Enrollment PIN

**Note:** Leaving the enrollment PIN blank will allow anyone to self-enroll for the course without having to be invited or added by an editor in the course.

Enrollment Begins

Enrollment Ends

December 29 2008 AM 11 25

**Note:** Enrollment beginning and ending dates only affect self-enrollment. Course/group editors will still be able to add and remove users at any time. Setting the end date to a date in the past will disable the PIN enrollment feature.

Save Cancel

508 PDA

To enable student access: Click **Access** tab and select **All Members**. Click **Save**.

The screenshot displays the 'Practice Course Riman2' management interface. At the top, there are navigation tabs: Course, Calendar, Learning Modules, Resources, Communicate, Report, and Manage. Below these is a breadcrumb trail: Home > Course > Management Console > Course Settings. The main content area is titled 'Course Settings' and includes sub-tabs: Course, Access, Enrollment, Standards, Objectives, and Advanced. The 'Access' tab is highlighted with a blue box. Under the 'Member Access' section, a dropdown menu is open, showing three options: 'Editors Only', 'All Members', and 'Editors Only'. A blue arrow points to the 'All Members' option. Below the dropdown, there is a 'Guest Access' section and a 'Search Engines' section with radio buttons for 'Yes' (selected) and 'No'. At the bottom of the settings area are 'Save' and 'Cancel' buttons.

Students can now access  
your course.

# Congratulations you are done!

Access needs to be managed for each course individually.
