

FIT Housing Assistance

The FIT campus in Florence offers limited housing assistance during the month of August. The FIT staff in Florence can assist students with resources, agencies, lease review, directions, neighborhood information and general problem solving. However, students are responsible for finding their own housing based on personal needs and budget. Students have the possibility of seeing many different apartments within the time frame during orientation week. Florence is definitely not short of available apartments; the staff at FIT in Florence recommends *Florence and Abroad* (F&A). This agency will have a full apartment listing with open house tours set up for FIT students during orientation week.
